

### 1) Local Theft Incidents

First, some news about thefts that occurred in Hiratsuka this past October.

There were a total of 51 bicycle thefts reported across nearly every neighborhood in the city. In particular, Amamuma had 8 cases, Shonomiya had 4, and Sanada, Nakahara, and Beniyacho each had 3 cases.

Please note that bicycles have been stolen even when parked inside private property, and sometimes even when locked. To better protect your bicycle, we recommend using an additional wire lock, available at home centers.

Motorcycle thefts were also reported, with 23 cases in total. Tamura had 5 incidents, and Higashi-Shindo had 3. When parking your motorcycle, please use an anti-theft lock in addition to the regular key.

### 2) Scholarship for High School Students

Kanagawa Prefecture offers scholarships for students entering high school next year. Eligibility includes:
